

# Department of Health Professions

DIRECTOR'S POLICY # 76-1.12

## Extension of time for active duty servicemen or spouses

Effective Date: March 23, 2012

Approved By: \_\_\_\_\_

*D. Reynolds-Cane MD*  
Dianne Reynolds-Cane, M.D., Director

**Purpose:** To ensure agency compliance with § 54.1-11, as amended in 2011. *Expiration of documents issued to persons in diplomatic service and the armed services of the United States.*

*Notwithstanding any contrary provision of law, any license, permit, certificate, or other document, however styled or denominated, that is related to the practice of any business, profession, or calling and issued under this title to any citizen of the Commonwealth shall be held not to have expired during the period of such person's service outside the United States, in the armed services of the United States or as a member of the diplomatic service of the United States, appointed under the Foreign Service Act of 1946, serving outside the United States and 60 days thereafter. However, no extension granted under this section shall exceed five years from the date of expiration of the document. The provisions of this section shall apply to the spouse of a member of the armed services of the United States if the spouse accompanies the member during periods of service outside of the United States.*

*For the purposes of this section "service in the armed services of the United States" includes active duty service with the regular Armed Forces of the United States or the National Guard or other reserve component.*

### Policy:

To make arrangements as necessary to ensure that persons serving on active duty outside the United States or their spouses are accorded the benefit of an extension of time for any deadline or requirement pertaining to renewal of a license, certification or registration. Extensions should be granted for 60 days after the person's return to the United States, not to exceed five years from the date of extension. For the purpose of this policy, "licensee" shall include certificate holders or registrants; and "license" shall include a certificate, registration or permit.

### Procedure:

1. The executive director of each health regulatory board should ensure that the benefit is adequately publicized by inclusion of information on websites, newsletters or other means of communication.
2. All staff who process renewals or audit continuing competency requirements should be aware of the policy to assist licensees who may be eligible for this benefit.
3. A copy of military orders or form DD214 placing the licensee or spouse on active duty outside the United States shall be considered sufficient documentation to determine eligibility.
4. At the conclusion of the 60 days following the person's return to the United States, the license is expired but may be renewed with payment of the renewal fee and late fee according to board regulations.
5. If it is determined that any person who meets the criteria set out in § 54.1-117 has improperly been charged a late fee or required to reinstate a license, that person is eligible for a refund from the agency.
